

CLOUD-MANAGED ENTERPRISE VIDEO SECURITY.

HYBRID ON-PREM & CLOUD STORAGE SOLUTIONS

DW
Stay current at:
Digital-Watchdog.com

VIDEO STORAGE AT EVERY TIER. FREEDOM OF CHOICE AT EVERY SITE.

Only DW gives you a complete, single-vendor path from the camera to the cloud. Start where you are and add tiers as you go.

EDGE **MEGApix Ai CloudCam**

Serverless sites, fast rollouts, AI analytics at the camera and immediate local access.

ON-PREMISE **Blackjack Servers**

High-performance centralized recording and management for larger sites.

CLOUD **DW Cumulus**

Off-site redundancy, long-term retention and growth without new hardware.

WHY DW CUMULUS?

A hybrid storage solution for DW Spectrum Enterprise products—scale from terabytes to petabytes in minutes.

01

Your footage survives anything that happens on site

Hard drives fail. Buildings flood. Break-ins target the recorder first. With DW Cumulus, an encrypted copy of your video lives safely off-site, so the incident that damages your equipment can never erase the evidence of what happened.

02

Keep recording, even when the internet does not cooperate

Recording still happens locally on your DW Spectrum server or CloudCam camera, so an internet outage does not create a blind spot. Your system keeps capturing and syncs to the cloud when the connection returns.

03

Grow retention without buying another box

Need 90 days instead of 30? Adding a new site? Facing a new compliance requirement? With plans from 1TB to 64TB, extending your storage is a subscription change, not a hardware project.

04

Predictable cost and a lower total cost of ownership

Replace surprise capital expenses with a plan you can budget for. With 12-month and 36-month subscriptions, you know what storage costs this year and next, and you stop over-buying local disks to cover worst-case retention.

05

See every site from one place

Multi-location businesses no longer need a full NVR stack at every store, clinic, branch or campus building. Connect each site and manage recording, retention and access from a single DW Spectrum interface.

06

Security you can point to during an audit

Video is transmitted using industry-standard encryption, stored on a platform rated for 99.999% durability and available 24/7, and accessible only to the users you authorize through role-based access controls.

THE BEST OF BOTH WORLDS, WITHOUT THE TRADE-OFFS OF EITHER

Hybrid cloud storage combines local storage at your business (on-prem) with backup storage in the cloud. The two work together, giving you flexibility to decide where your data belongs and move it as your needs change.

You might keep files onsite when they need immediate access or close control. The cloud can provide extra space for data redundancy for compliance and additional backups.

ON-SITE VS. CLOUD-ONLY VS. HYBRID AT A GLANCE

Enterprise Capability	On-site only	Cloud only	Hybrid with DW Cumulus
Survives a failed drive or stolen NVR	— No	✓ Yes	✓ Yes
Keeps recording if the internet drops	✓ Yes	— No	✓ Yes
Instant local live view and playback	✓ Yes	Depends on connection	✓ Yes
Grow retention without buying hardware	— No	✓ Yes	✓ Yes
You own and control your footage	✓ Yes	Limited	✓ Yes
Predictable cost	Big upfront spend	Ongoing, per-camera	Simple 12- or 36-month plan
Bandwidth demand	None	High, continuous	Right-sized for what you back up

Secure, Scalable, Always On

Purpose-built cloud features for surveillance and security operations.

Easy Multi-Site Deployments

Connect security cameras directly to the cloud to scale across locations without duplicating NVR systems at each site.

Failover & Data Protection

Securely store surveillance video off-site in the cloud, protected from hardware failure and tampering.

Industry-Standard Encryption

Footage transmitted via protected encryption protocols, preventing interception, ensuring data integrity, and guaranteeing only authorized access.

BUILT FOR BUSINESSES THAT CANNOT AFFORD TO LOSE A SINGLE CLIP

Retail and restaurants

Protect loss-prevention and liability footage across every location, and stop maintaining a recorder in every back office.

Healthcare and senior living

Meet retention requirements with encrypted, off-site copies and tightly controlled access.

Education

Cover multiple campuses and buildings from one interface with room to grow every school year.

Banking and finance

Keep tamper-proof evidence off-site with audit-ready security controls.

Property management

Bring new properties online in days with CloudCam and DW Cumulus, no server required.

Municipal and government

Extend retention and resilience within a predictable budget cycle.

TABLE OF AVAILABLE SUBSCRIPTIONS

One-year subscription:

Part Number	Description
DWS-CS12M250G	DW Cumulus Subscription, 250GB, 12 Months
DWS-CS12M500G	DW Cumulus Subscription, 500GB, 12 Months
DWS-CS12M750G	DW Cumulus Subscription, 750GB, 12 Months
DWS-CS12M1T	DW Cumulus Subscription, 1TB, 12 Months
DWS-CS12M2T	DW Cumulus Subscription, 2TB, 12 Months
DWS-CS12M4T	DW Cumulus Subscription, 4TB, 12 Months
DWS-CS12M8T	DW Cumulus Subscription, 8TB, 12 Months
DWS-CS12M12T	DW Cumulus Subscription, 12TB, 12 Months
DWS-CS12M16T	DW Cumulus Subscription, 16TB, 12 Months
DWS-CS12M24T	DW Cumulus Subscription, 24TB, 12 Months
DWS-CS12M48T	DW Cumulus Subscription, 48TB, 12 Months
DWS-CS12M64T	DW Cumulus Subscription, 64TB, 12 Months

Three-year subscription:

Part Number	Description
DWS-CS36M250G	DW Cumulus Subscription, 250GB, 36 Months
DWS-CS36M500G	DW Cumulus Subscription, 500GB, 36 Months
DWS-CS36M750G	DW Cumulus Subscription, 750GB, 36 Months
DWS-CS36M1T	DW Cumulus Subscription, 1TB, 36 Months
DWS-CS36M2T	DW Cumulus Subscription, 2TB, 36 Months
DWS-CS36M4T	DW Cumulus Subscription, 4TB, 36 Months
DWS-CS36M8T	DW Cumulus Subscription, 8TB, 36 Months
DWS-CS36M12T	DW Cumulus Subscription, 12TB, 36 Months
DWS-CS36M16T	DW Cumulus Subscription, 16TB, 36 Months
DWS-CS36M24T	DW Cumulus Subscription, 24TB, 36 Months
DWS-CS36M48T	DW Cumulus Subscription, 48TB, 36 Months
DWS-CS36M64T	DW Cumulus Subscription, 64TB, 36 Months
