What are VMAX IP G4 NVRs?

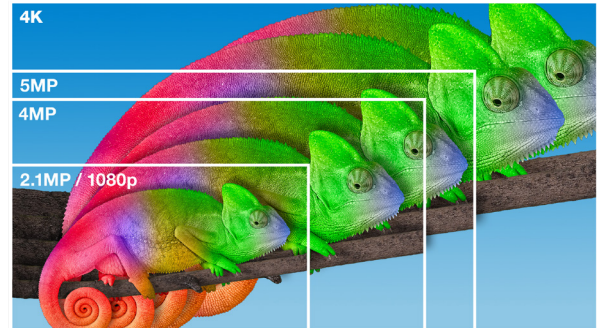

VMAX IP G4 is an easy to use PoE NVR that allows you to go from power up to monitoring in minutes!

Key Technologies

Megapixel resolution

DW's technology delivers crystal-clear images in resolutions up to 4K. Higher resolution delivers forensic details when zooming into the camera's field of view.

NDAA/TAA
COMPLIANT PRODUCT

Trade
Agreements
Act FAR 52.225-5

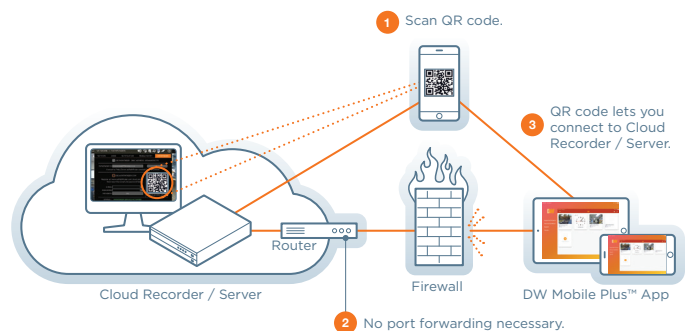

NDAA / TAA Compliant

DW IP cameras, analog cameras, NVRs, DVRs, network devices and management software sold and distributed worldwide are designed and developed in U.S.A. and Korea. Manufacturing is done in Korea.

Most DW products qualify for GSA Schedule Contracts and other government opportunities because they are TAA / NDAA compliant.

PathFinder

Easy and secure end-to-end remote connection with NAT Traversal (STUN/TURN) support without opening ports.

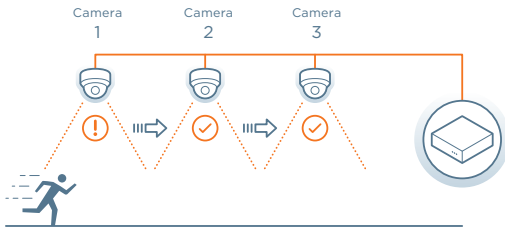

Plug and play with local PoE+ ports

The VMAX IP G4 NVRs can power up to 16 IP cameras locally from the system itself, no need for PoE switches and additional power sources.

Camera Group Recording

Designate a group of cameras to respond to an alert from one camera.

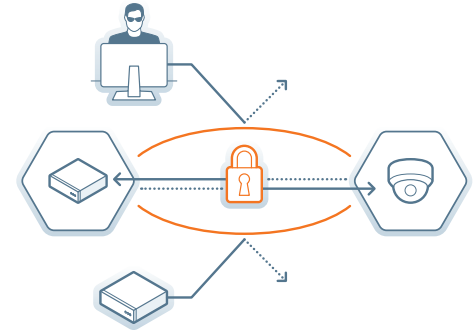

Snapshot Notify™

Set up interval camera notifications to be sent to an email or CMS.

CCIP

Closed Circuit IP (CCIP) encryption is a secured and encrypted RTSP stream that can be read only by the requesting recorder.

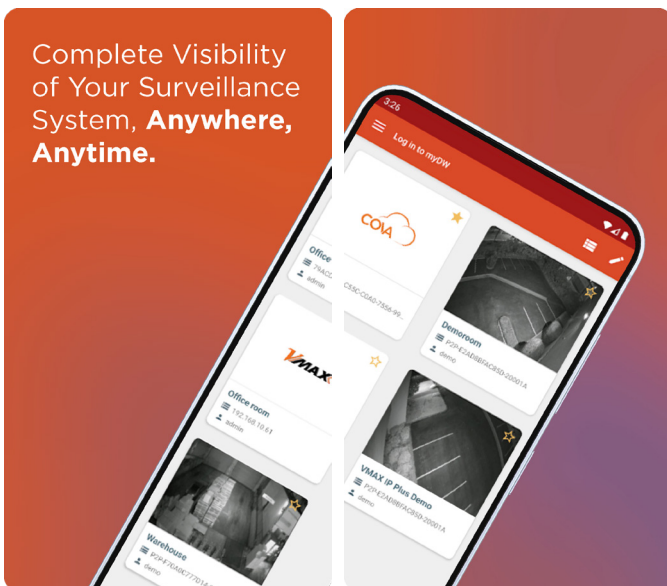

DW Witness Mobile App

The DW Witness app instantly turns your smartphone or tablet into a video surveillance camera. With the press of a button, start transmitting live video to your VMAX IP G4. It's a "black box" for personnel on patrol.

Complete Visibility of Your Surveillance System, **Anywhere, Anytime.**

DW Mobile+ App

View your system from anywhere with a smartphone or tablet with DW's free and simple to use mobile apps.

Network Video Recorders

Installation in minutes

Get your NVR from the box to monitoring and recording in minutes!

System Monitoring

A real-time graphical representation of all system connections. Receive connection alerts via email or text.

Thumbnail Search

Find video fast by clicking on thumbnails by the date, hour and minute.
